Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1** **Access & Orient**	**Stage 2** **Explore & Analyse**	**Stage 3** **Insight & Decision**
Actions *What does the customer do?*	• Opens the dashboard link in a browser • Reads the title and sample-data note • Picks a persona tab	• Applies category, battery, country and maker filters • Compares charts and KPIs • Sorts the model table	• Reads the auto-generated insight line • Notes leaders and fast-growing segments • Shares findings in meetings
Touchpoint *What part of the service do they interact with?*	• Dashboard web page • Persona tabs • KPI cards (sales, growth, range, rating)	• Filter dropdowns and Reset button • Interactive charts and tooltips • Sortable model explorer table	• Insights banner • Charts and KPI summary • Reports and slides (outside the tool)
Customer Thought *What is the customer thinking?*	• “Is this the right view for my role?” • “Can I trust this data?” • “Where do I start?”	• “How does LFP compare with NMC?” • “Which segment is growing fastest?” • “Who leads in this category?”	• “Now I can back my decision with data.” • “What should we invest in next?” • “I need real data for the final call.”
Customer Feeling *What is the customer feeling?*	• Curious but a little cautious • Relieved the view matches my role • Eager to start exploring	• Engaged and in control • Confident as filters update instantly • Limited by sample-data size	• Satisfied with clear takeaways • Ready to present to leadership • Keen for live data updates

Process Ownership *Who is in the lead on this?*	Dashboard developer and BI team: build the layout, persona tabs and data load.	BI analyst: owns filter logic, KPI calculations and chart accuracy.	Strategy Director, BI Manager and Researcher: interpret the insights and decide.
Opportunities *How can we improve this stage?*	• Add a short guided tour • Remember last persona and filters • Load faster on mobile	• Add multi-select filters • Add a side-by-side model comparison • Explain each metric in tooltips	• Export charts and insights to PDF • Add real data with scheduled refresh • Add alerts on sales or share changes
